

Crema

Introduction

CREMA is a new range of architectural hardware developed by Creative Manufacturing to meet the demands of the construction industry at the beginning of the 21st century.

A co-ordinated, wide range of door furniture, pull handles, bathroom accessories and cabinet fittings, CREMA has been designed for use in contemporary commercial and residential projects.

All products within the CREMA range are manufactured from a long lasting and high grade of stainless steel, available in either polished or satin finishes.

Designed to complement door controls, glass fittings and the wide assortment of architectural hardware, you can be confident that CREMA will add those all-important finishing touches.

CREMA will continue to grow and evolve, so if you cannot find a suitable product in this catalogue, please contact our sales office and we will make every effort to help.
