Conditions Of Sale

All goods supplied by Shepherds Hardware will only be supplied on the conditions of sale listed hereunder and orders will only be accepted on these conditions and no other.

- All previous price lists and quotations are cancelled
- Strictly nett monthly account
- Prices charged will be those ruling at the date of despatch
- Claims for shortage or damage to be notified in writing, within 7 days of receipt of goods
- Returns, amendments or cancellations must be agreed in writing. Returns will incur a handling charge of 20%
- V.A.T. is not included in the printed prices. It will be shown as an extra on the invoice
- Minimum Carriage paid orders are as follows:

UK Mainland	£100		
Northern Ireland	£150,	Eire	£150
Channel Islands	£150,	Isle Of Man	£150

Carriage on all orders below these values will be charged at £8.50 on the Mainland and £25.00 elsewhere per consignment
Orders direct to site will have an additional £5.00 surcharge
We regret that we are unable to deliver to building sites because
- of difficulties in obtaining a valid P.O.D.
- Parcel post will be charged at cost plus 50% to cover handling and packaging
- Orders will be executed to the nearest box quantity above that which is ordered. Where quantities of less than a standard pack are agreed upon, a surcharge of 10% will be applied to cover handling
- In the event of goods proving faulty, they will be replaced immediately, but no liability for consequential damage will be accepted
- All goods supplied by Shepherds Hardware remain the property of the company until paid for in full
- Any specification or description shown in this price list is correct at the time of printing, but in the event of changes thereto, we will supply in accordance with any modifications that may be necessary

Acoustic Drop Down Seals

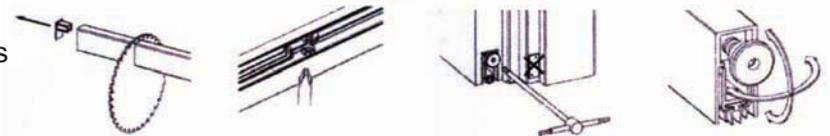

TGS Acoustic Solutions offer a high quality range of acoustic drop down seals for the bottom of doors. The seals are activated by the closing action of the door, dropping down to seal only when the door is closed. This leaves the door threshold clear and flat, without the need for high fixed thresholds.

TGS Acoustic Solutions seals have been tested without threshold plates and straight down to carpet.

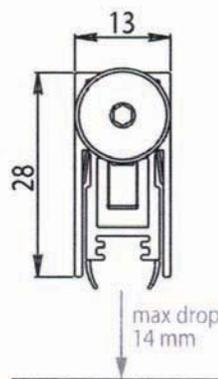

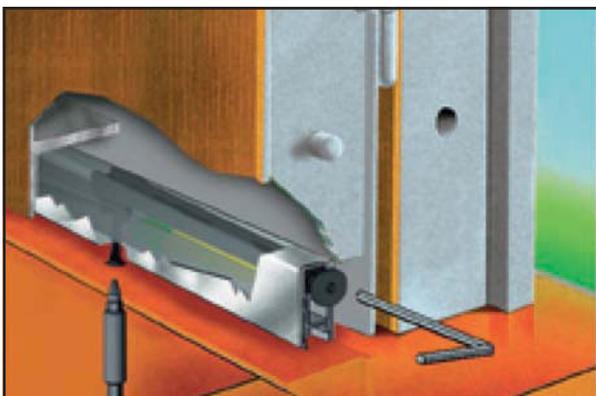

The seals are designed to form an effective barrier against the outside climate, noise, light, fire, smoke and insects. They provide a cost-effective solution for document part E and part M of the latest UK building regulations relating to disability, access and energy conservation.

The seals are easily fitted: cut the seal down to the door width, attach to the door using the pre-fitted screws, and adjust the drop for a tight seal onto the floor with a 3 mm allen key. There is a self aligning cap on the end of the plunger.

All seals have been tested to 200,000 cycles

'Top' Acoustic Drop Down Seal (37 dB rated) Ref: ASTOP

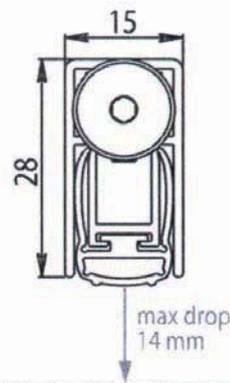

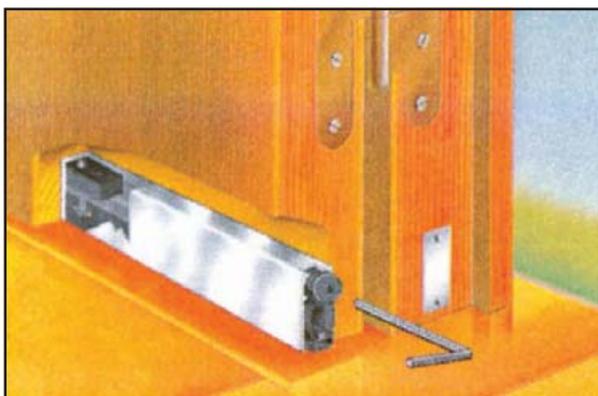

Sound Insulation:	37dB	
Stock Lengths:	830 mm	•
	930 mm	•
Max. Trim Length:	100 mm	
Max. Drop:	14 mm	
Finish:	SAA	
Fixing is with pre-fitted screws		

The Top Acoustic seal drops on the hinge side before the lock side. The seal is removable from both sides to assist in installation. Manufactured using galvanised steel flat springs and reinforced actuators.

Acoustic Plus 51 Drop Down Seal

51 dB rated

Ref: ASPLUS

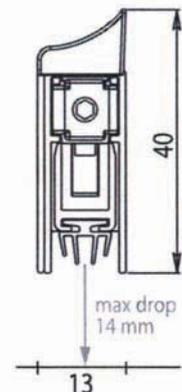

- Sound Insulation: 51dB
- Stock Lengths: 830 mm •
930 mm •
- Max. Trim Length: 150 mm
- Max. Drop: 14 mm
- Finish: SAA
- Fixing is with pre-fitted screws

The Acoustic Plus 51 seal drops on the hinge side before the lock side. The seal is removable from both sides to assist in installation. Manufactured using galvanised steel flat springs and reinforced actuators.

'Applique' Acoustic Drop Down Seal

37 dB rated

Ref: ASAPP

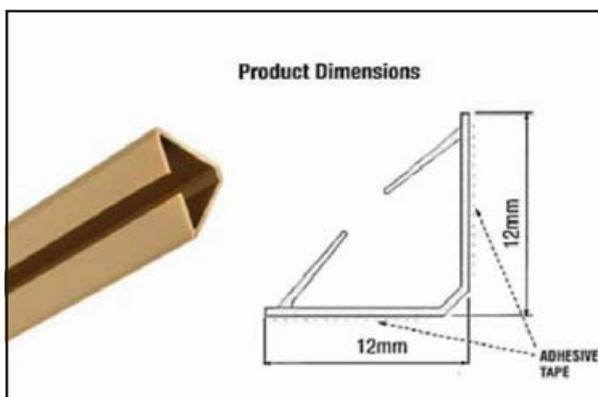

- Sound Insulation: 37dB
- Stock Lengths: 830 mm •
930 mm •
- Max. Trim Length: 150 mm
- Max. Drop: 14 mm
- Finish: SAA
- Fixing is with supplied screws

The Applique acoustic seal can be fitted to the inside (lock side) using the provided bumper, or outside of the door (non lock side). Manufactured using galvanised steel flat springs and reinforced actuators.

Acoustic Perimeter Seal - Corner Style

37 dB rated

Ref: ASPER

- Sound Insulation: 37dB
- Stock Lengths: 2100 mm
- Stock Colours: White •
Brown •
Black •

All doors require a gap between the perimeter of the door and the door frame to allow easy opening and closing and to allow for any expansion / movement within the building.

Approved Doc E. The acoustic performance of door sets set out in this document requires a reduction of Rw29dB. Testing in accordance with **BS EN ISO 240-3:1995** revealed wooden doorsets with no seals fitted around the perimeter only achieved a rating of Rw23dB. This reduction was increased to Rw37dB (tested) when re-tested with single combinations and multiple seal types.

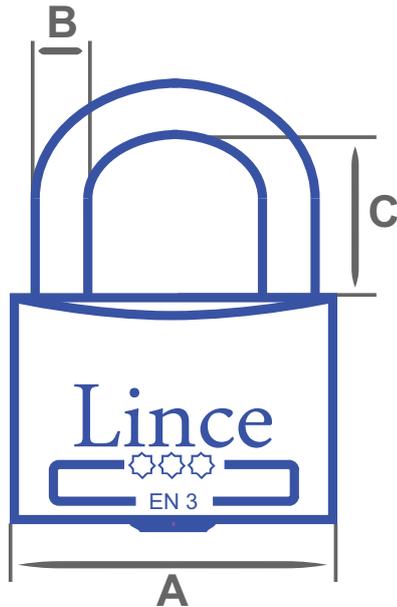

The seals have also been tested and approved in accordance with **BS 476 Part 31.1:1987** (smoke seal test).

Tested To EN 12320

- All Lince padlocks have a 5 pin tumbler mechanism
- Padlocks are supplied complete with 2 keys
- One size key blank fits all Eurotop & Nautic padlocks
- Double locking shackle

One size key blank suits all Eurotop and Nautic padlocks and Lince cylinders

500KB ●

Nautic Range

- Stainless steel shackle
- Stainless steel components
- SCP brass body

Nautic Series Padlocks

The Nautic Range, as the name suggests, is mainly recommended for outdoor use, and is especially effective near the sea.

To help **withstand corrosion** a stainless steel shackle is used. All internal parts are also made of stainless steel: hitches, springs, pins and tumblers.

The body and rotor are made of brass with a 15 micron chemical coating, both inside and outside.

This lead to the humidity test having little effect on the padlock... ensuring optimal life-long performance (over 3,000 hours)
