## BARYCOMPLETE.RH.SSS

SSS

## BARYCOMPLETE.LH.SSS

The new enhanced NKS lock is now made as standard in Satin Stainless Steel (Grade 316) which is suitable for external use in excessive climatic conditions. The lever handle is a return to door safety type and complies with current DDA regulations. Externally a red and white indicator identifies the toilets current status, there is a built in coin emergency release plus anti-vandal external bolt fixings. All locks come with one standard key to be used for fitting.

## Interchangeable

The NEWSTAR NKS lock can be operated with all current NKS keys on the market. In addition you can retro fit a NEWSTAR NKS lock into any existing mortises without further adjustment.

## Functionality

The lock is operated from the inside via the standard lever operation that retracts the latch. The lever when in the horizontal position can be lifted up to ensure that the latch bolt is locked. When lifted the red indicator shows on the outside, the key will not operate the lock, although emergency access is available via the built in coin emergency release. External access is via key only when white indicator is showing, coin emergency release when indicator is red. Once the door is closed again, it will automatically lock.

### External to operate

Key access  
Coin release

### Internal Standard

Horizontal

### Internal to lock

Lever travel 45°

### Internal to operate

Lever travel 20°

## Handing

The lever furniture is handed but the lock is reversible.

**Right hand** anti clockwise closing

**Left hand** clockwise closing

## BARY.NKS.KEY

The new NKS keys are available from [new-star.co.uk](http://new-star.co.uk) and selected wholesalers. It has been designed to encompass more users and allow ease of use.

### Key features include;

- Extremely tactile
- Bow allows ease of use
- NKS logo
- National Key Scheme (NKS) identification
- Key Ring hole
- Braille identification
- Bright red bow.

# Disabled Toilet Handle Set (dual handed)

# Garage Door Bolt

## Disabled toilet handle set

**NS.DTHS**

- Ideal for retro fitting
- Dual Handed
- Suitable for hinged or sliding doors
- Emergency Release

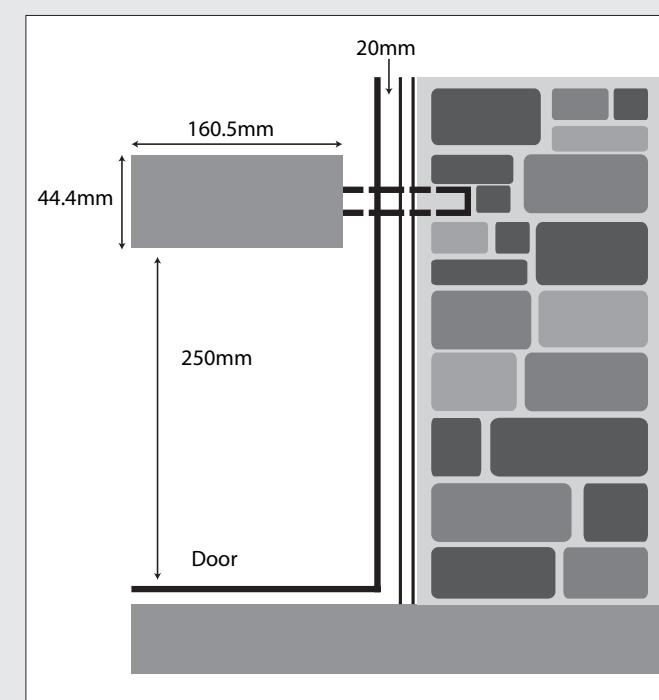

## Garage Door Bolt c/w Hardened Steel Rollers

**NS.GDB**

- The Newstar **BARRY** garage door bolts are for use on all types of sectional or up and over garage doors. Universally designed this product allows for a wide variation of door constructions, operated from both sides and can be fitted either vertically or horizontally.
- The **BARRY** garage door bolt comes with hardened steel rollers to enhance security.
- The **BARRY** garage door bolt is very easy to fit on all metal or wooden doors up to 38mm thickness.
- They come complete with coach bolts, nuts and escutcheons.
- Both locks are keyed alike with a four sided key offering millions of key differs. Three keys are provided.
- The **BARRY** garage door lock is available in black.

**NS.LB2**

Mild steel construction with  
hardened steel staple  
Supplied with fixing screws  
and bolts

Central shutter lock

**NS.CSL1**

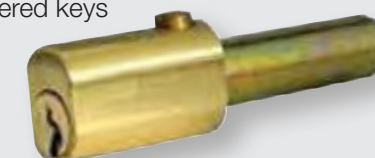

Standard width, case size 155mm x 55mm  
Available keyed alike or in groups of 10  
Key operated from both sides  
Supplied with 3 numbered keys

Oval Bullet Lock

**NS.OBL1**

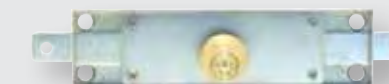

Brass body, steel pin  
Available keyed alike or in groups of 10  
Supplied with 2 numbered keys

Central shutter lock

**NS.CSL2**

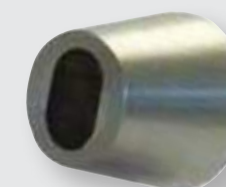

Narrow width, case size 155mm x 40mm  
Available keyed alike or in groups of 10  
Key operated from both sides  
Supplied with 3 numbered keys

Steel Housing for OBL1 Bullet Lock

**NS.OES1**

Machined from 40mm diameter mild steel bar  
Tapered profile. Self colour finish

Central shutter lock

**NS.CSL3**

Ultra narrow width, case size 200mm x30mm  
Available keyed alike or in groups of 10  
Key operated from both sides  
Supplied with 2 numbered keys

# Roller bolt night latch C€

# Standard night latch

## Roller bolt night latch case only

**LRB1**

C/W Cylinder **Ref: RB1**

### Functional criteria:

1. Thumb turn handle withdraws and throws roller bolt.
2. Cylinder withdraws and throws roller bolt.
3. Roller bolt holds door in position when unlocked.
4. Meets the recommendations of BS 5588.

### REF: GA1

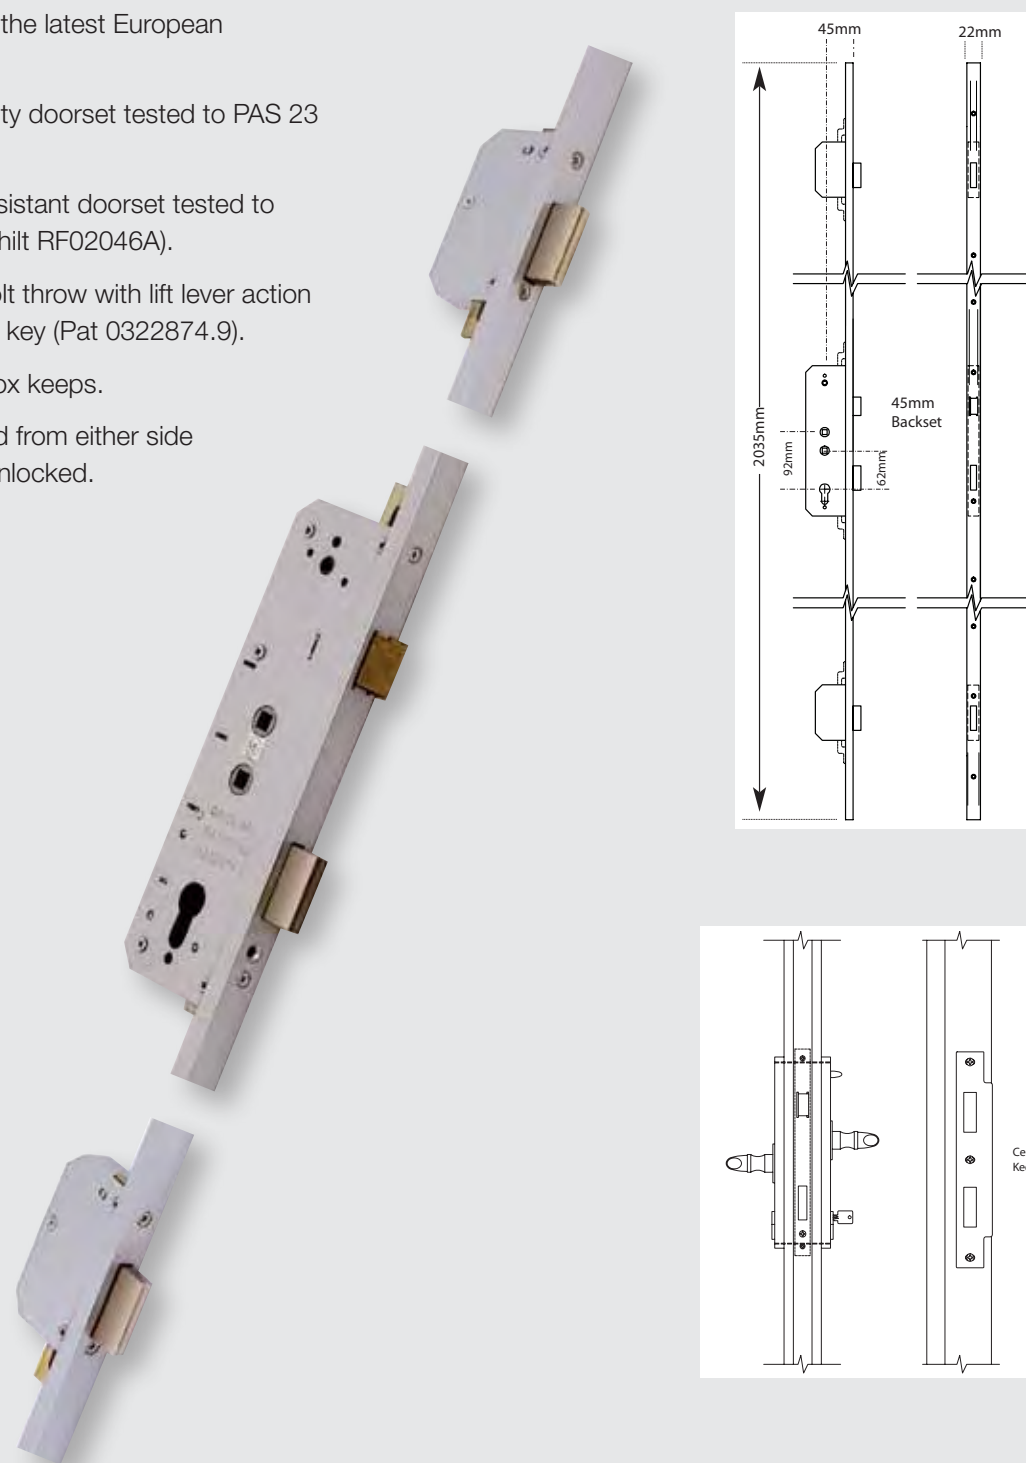

- British designed to the latest European specifications.
- Passed the loading tests of PAS 24.
- Performed over 50,000 cycles.
- Successfully assessed in a fire resistant doorset to EN1634-1:2000 (30 minute).
- Patented 20mm bolt throw with lift lever action and one turn of the key (Pat 0322874.9).
- Adjustable metal box keeps.

## Multipoint Lock

**REF: GA2**

- British designed to the latest European specifications.
- Included in a security doorset tested to PAS 23 and PAS 24.
- Included in a fire resistant doorset tested to EN1634-1:2000 (Chilt RF02046A).
- Patented 20mm bolt throw with lift lever action and one turn of the key (Pat 0322874.9).
- Adjustable metal box keeps.
- Entry can be gained from either side of the door when unlocked.

**Dimensional Requirements**

DIN 18251

**Additional requirements**

Split follower spindle Ref: NS.SS

13mm & 25mm rebates available.

Intumescent pack available.

**BS EN 179 - Emergency exit devices**

This standard covers devices to be used in emergency situations where people are familiar with the emergency exit and its hardware and therefore a panic situation is most unlikely to develop. Lever handle operated escape mortice locks or push pads may therefore be used.

Note: When using a cylinder and turn, if the cam is not fully turned then the lock may jam. We recommend a double cylinder is used with this lock.

**Functional criteria:**

1. Lever handle withdraws and dead bolt.
2. Latch bolt is reversible for opening in or out.
3. Split follower function is handed.
4. Cylinder double throws dead bolt to 22mm.
5. Cylinder withdraws latch.
6. 60mm backset. 72mm centres.
7. Strike includes dust caps in white.
8. Radius or square forend available.

## SS.CD – Double Cylinder

## SS.CT – Cylinder & Turn

### Specifications

- ✓ Complies with EN1303 and kitemarked by BSi, and meets 1\* rating of TS007:2011
- ✓ Includes a sever point that is designed to snap off before the cam when attacked, leaving the lock secure
- ✓ Minimum of 100,000 differs
- ✓ Tested to 100,000 cycles for durability
- ✓ Drill resistance tested
- ✓ Corrosion tested to 96 hours salt spray
- ✓ Available as double, and cylinders with thumbturn
- ✓ 35/35 size available from stock, other sizes available on request.
- ✓ Supplied with 3 keys per cylinder as standard
- ✓ Available in brass and nickel finishes

Please note that this cylinder must not project more than 3mm from the face of the escutcheon or the backplate

## 200° glass door viewer C/W shutter

DV-015  
ET-14.SCP

SCP PCP FR 30

- All models with highly polished optical glass lenses.
- By extending male screw, female screw, or both (or by shortening), the door viewer can easily be adjusted for any door thickness.
- Material : brass.
- Door thickness : 35-60mm (3-3/8" – 2-3/8").

Extensions are modular in 10mm increments.

Proposed Classification in accordance with DHF Technical Specification 002 : Door viewers : November 2005

## Door & Window Restrictor

**WL1**

- The **BARRY** Restrictor limits the opening of doors and windows. Particularly designed with window safety in mind, due to the number of accidents occurring through window openings exceeding that of a child's size.
- The **BARRY** Restrictor is lockable and comes with a cable length of 200mm. All keys are within a passing group which ensures ease of use within a single dwelling. The **BARRY** Restrictor can be fitted on wood, aluminium, PVC and steel. Supplied with tamper proof screws once fitted the likelihood of abuse is minimized. The **BARRY** Restrictor is available in white only.
- The **BARRY** Restrictors are multi-faceted and are ideal for houses, apartments, commercial premises and public buildings. Supplied with a disc lock mechanism the **BARRY** Restrictor will improve the security of buildings and the safety of its occupants.
